

SquirtSEAL Safety Data Sheet

1. Product & company identification

Product name SEAL Puncture Sealant
Supplier Bikinvention 2 CC
121 Gladiolus Ave,
Address Brenton on Sea
Knysna, South Africa
Telephone no (+27) 834594548
Fax (+27) 86 611 5499

2. Hazards identification

This substance is not classified according

GHS labelling requirements:

Physical state and Liquid

Hazardous components

Potential Acute health effects

Eyes

Skin

Inhalation

Ingestion

3. Composition/Information on Ingredients

Generic name

Synonyms

Main Ingredients

9. Physical and chemical properties

Colour

Odour

Density at 20° C

Solubility in water

pH-value aqueous extract

Physical state

10. Stability and reactivity

Conditions to avoid

Incompatibility with substances

Hazardous decomposition products

Thermal decomposition

11. Toxicological Information

4. First-aid measures

Eye contact

Skin contact

Note to physician

5. Fire-fighting measures

Flammability of the the product

Unsuitable extinguishing media

Protective equipment (fire)

Specific hazards

Additional informat

6. Accidental release measures

Small spill & leak

Large spill & leak

7. Handling and storage

Handling

Storage

12. Ecological information

13. Disposal considerations

Waste information

Product Recommendation

EWC (European Waste Catalogue)

OECD Liat

14. Transport information

Sea Transport

15. Regulatory information

HCS Classification

TSCA 8(b) inventory

8. Exposure controls/personal protec

Exposure limits (fumes)

Engineering contro

Personal protective equipment

Eyes

Body

Respiratory

Hands

Feet

Personal protection with large spill

Additional instructions

16. Other information

Revised Feb 2016
